September 15th and October 1st.

THE WADSWORTH

June 20, 1897

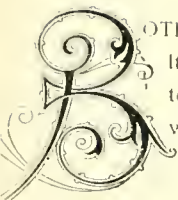

Guests engaging rooms at The Wadsworth will be accommodated
at The Kent until the opening of The Wadsworth at some date.

C. G. TRUSSELL

THE KENT.

THE WALDMERE.

BOTH THE KENT HOUSE AND THE WALDMERE are under the same Proprietorship.

It is believed that much good has been accomplished by the two houses working together in harmony, under one management. The satisfactory result has proven the wisdom of this arrangement. While each will have its distinct individuality, the guests of either house will have all the privileges of the other.

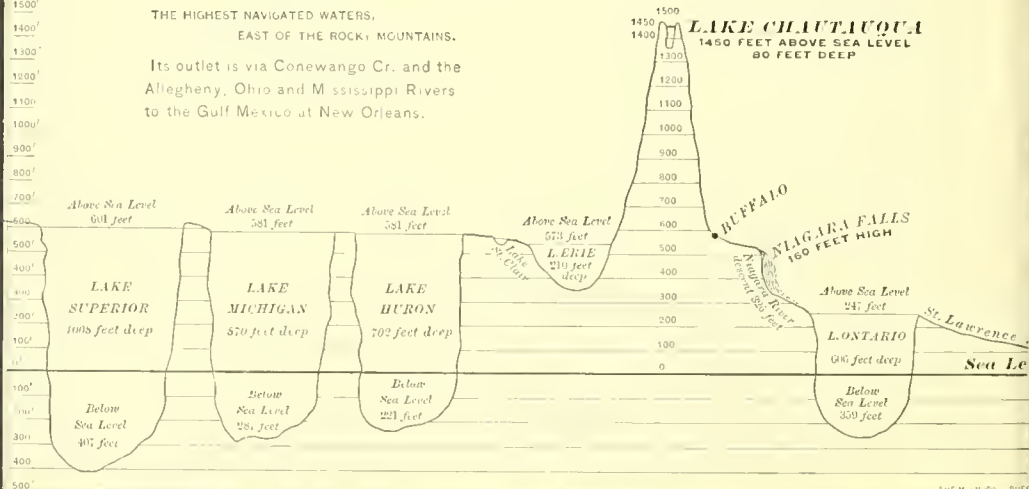

Many radical changes and improvements have been made, some of which are on too extensive a scale to be mentioned in detail, but much has been done that will add to the comfort and convenience of guests. Among other things is the consolidation of the two lighting plants; removing of casino building and gas holder; also, combining the two water systems and supplying both hotels and all cottages from the KENT HOUSE ARTESIAN WELLS, which an analysis shows to be exceptionally pure. Much has been done in the way of renovating, painting, and laying out of the grounds, so that Lakewood will look prettier than ever.

LAKE CHAUTAUQUA,

NEW YORK.

THE HIGHEST NAVIGATED WATERS,
EAST OF THE ROCKY MOUNTAINS.

Its outlet is via Conewango Cr. and the
Allegheny, Ohio and Mississippi Rivers
to the Gulf Mexico at New Orleans.

LAKE CHAUTAUQUA is a well-known and famous resort of the summer-people, and is one of the most beautiful and healthful places in the world. It is located upon its namesake lake, in the northwestern corner of New York State, at an elevation of 1,400 feet above the sea level and 800 feet above Lake Erie, from which it is but about three miles distant at its western extremity. Its pure, deep, clear water comes almost entirely from underground springs, there being no inlet, and the atmosphere possesses a freshness and bracing quality. In contact with the undulating waves of the cool waters of the lake, that brace, invigoration and health, drives away insomnia and defies malaria.

FROM VERANDAS OF THE HOTELS.

LAKEWOOD, by those not familiar with Chautauqua Lake, is often associated with Chautauqua, the seat of the National Assembly. While it is only 1.4 miles distant, making it possible for Lakewood people to enjoy all the advantages of the Assembly, it is a distinct point of itself, and strictly a health and pleasure resort.

THE WALDMERE.

THE COTTAGES. Fronting the hotels on three sides are the cottages. They are, properly speaking, a part of the hotels, as they are occupied by people who live at the hotels, and have been brought to Lakewood by its conveniences and the desirable society which a mingling of hotel guests and cottagers has produced. The latter get their water from the famous KENT HOUSE ARTESIAN WELLS, electric lights from the hotels, and take their meals there. All lots are sold with provisions in the deeds requiring the erection of first-class cottages ; that no stable or objectionable outbuildings shall ever be erected upon the ground, or liquors sold on the premises ; thus protecting the cottage owner from annoyance of this kind. A few cottages are for rent, they are favorably located near the hotels, fronting towards the lake ; have all modern improvements, lighted by electricity, electric bell connected with hotel office, bath and toilet rooms, with arrangements for both hot and cold water.

M-11-56

COTTAGES CONNECTED WITH HOTELS.

LAKESWOOD, being midway between the East and West,
is easy of access from all points.

MOSQUITOES ARE POSITIVELY UNKNOWN IN OR ABOUT THE HOTELS
OR COTTAGES.

It has the elevation and advantages of mountain resorts, with
none of the disadvantages.

No malaria can be contracted in the atmosphere of this alti-
tude, and asthma or hay fever are either prevented or greatly
relieved

COTTAGES BETWEEN HOTELS.

INGLE NOOK IN THE OFFICE OF THE WALDMERE

MUSIC by a select band and orchestra. Concerts morning and noon, **DANCING** EVERY EVENING DURING THE WEEK.

One of the features of the season are the brilliant gowns given by the hotel guests.

BOATING. A first-class boat livery is maintained in connection with the hotels,—row and sail boats of the latest pattern. Attendants are always on hand to accompany children when desired.

GOOD DRIVING AND BICYCLE ROADS. A bicycle academy with attendants for giving instructions when desired, also keeping a first-class line of wheels for rent.

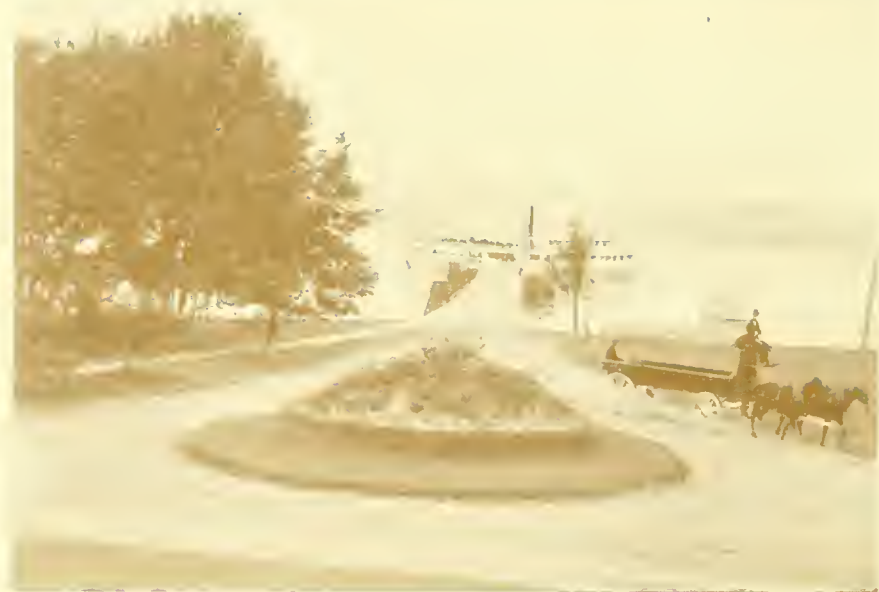

BALLROOM AND OFFICE OF THE KENT.

SUN DIAL.

THE CUISINE and service are of the very best, the staff being taken from the Bon Air, at Augusta, Ga., and other noted resorts. While each hotel will be operated separately, the SAME STANDARD WILL BE MAINTAINED IN EACH. Being located in the midst of the finest dairy country in New York State, the table is supplied with the very best of pure milk and butter. Large gardens and greenhouses in connection with the hotels also supply the earliest and choicest of vegetables.

THE GREENHOUSE, which is in charge of capable florists, will always have on hand a large stock of plants and flowers for decorative purposes, and cottagers or others desiring anything in the line can have their work attended to neatly and promptly.

KENT HOUSE DOCK.

COLORON. within easy reach of Lakewood, is one of the finest amusement resorts in this country. The "Phoenix Wheel," used at the "Atlanta Exposition," toboggan, bathing, electric tower, electric fountain, music theater, base ball grounds, and bicycle course, are among the many attractions.

The Lakewood & Celoron Ferry Company will run boats between Lakewood, Greenhurst and Celoron, every ten minutes.

These boats are new and of modern design, bought especially for this ferry.

Steamboats will leave the hotel docks every few minutes for every part of the lake.

CELORON, NEAR LAKEWOOD.

THE WATER SUPPLY. There is no requirement of a hotel of every-
thing of more careful consideration than its
water supply. In this case it is supplied by eight inch FLOWING ARTESIAN WELLS,
WHICH TAP AN INEXHAUSTIBLE SUPPLY 100 FEET BELOW THE ROCK. The wells are cased
with wrought iron pipe from the surface to the water's source. The supply is ample
in quantity and in purity is unexcelled; and is used for all purposes both in THE KENT
and THE WALDMERE, as well as all cottages connected with either hotel.

OFFICE, LOBBY AND GRAND STAIRCASE — THE KENT.

THE FISHING is good, and yearly improving. The laws of the State have been extended so as to protect the game fish of this lake. The famous CHAUTAUQUA LAKE MUSCALLONGE takes its name from this lake, and it is the only place where it abounds. It is served daily upon the tables of the KENT and the WALDMERE. Black bass and other game fish abound in great quantities, and the clear cold waters of Chautauqua are so well adapted to the propagation of game fish that the State of New York has recognized this fact and erected its State hatcheries upon the shores of this lake.

Muscallonge have been caught weighing as high as 45 pounds, and small mouth black bass weighing seven pounds.

KENT HOUSE FROM THE WATER.

THE DRUG STORE. A fully equipped pharmacy, under the management of an experienced pharmacist, still further contributes to the comfort and health of the hotel guests. A complete assortment of imported and domestic perfumes, cosmetics, toilet articles and family remedies may be obtained at the regular prices, while prescriptions will receive that careful attention and skill which this important work demands. Daily papers, periodicals, and all standard publications may be obtained at the pharmacy.
